

The Islamic Economy Accelerator in the UK

Q3 2018

Global Islamic Economy

A burgeoning market driven by entrepreneurship

The Islamic Economic Model

Islamic banking is not the only component

Islamic finance today:

- Predominantly banking assets
- Debt-based
- Fractional reserve banking model
- Reverse engineered
- Maqasid al Shari'a?

Islamic finance tomorrow:

- Banking and insurance
- Asset management
- Private equity and venture capital
- Waqf
- Zakat
- Sadaqa
- Social impact and green investment

The UK's Islamic Economy Accelerator

iE⁵ is the community space that supports halal economy businesses, especially digital, in the heart of London

Co-Working Space

Flexible mixed use space for all stages of businesses

Strategic Partners

iE⁵ has Islamic economy and innovation community specialist delivery partners

Gateway is a global multidisciplinary professional services firm, exclusively and wholeheartedly devoted to the Islamic economy and its underlying principles.

Its partners and consultants are senior Islamic economy professionals, many of whom are recognised throughout the world and have extensive experience in law, banking, finance, management consultancy, private equity, accountancy, financial technology, and regulation.

Elipses is a digital research, advisory and investment firm. Its partners are experts in developing innovation ecosystems, having built and run large blue chip corporate innovation programmes, founded and scaled start-ups to exit and developed and run industry communities focused on innovation.

Elipses clients are at the forefront of digital innovation, developing the next generation of digital businesses, in the Islamic, crypto and conventional economies.
